"PINKY PIE?!!"

KNEES ON THE TABLE PLEASE.

AND WHAT'S WRONG WITH "PINKY PIE"? IT'S CUTE!

HEARTBEAT NORMAL. WHERE'S MY THERMOMETER?

I...GUESS. I'D RATHER JUST CALL YOU "AMY" AND BESIDES...

Issue 2 Page 6

I wrote this before the new MLP existed so I didn't know there was gonna be some character with the same name. I love the subtle temperature check. XD

Taboo Toosies

Issue 2 Page 7

8/17/13

The way Sonic feet are in the comics and other media compared to the games have always been a bit controversial because they change from media to media. Here, I try to give a silly explanation.

A new playmate

8/25/13

Issue 2 Page 12

I think I added a few too many subplots to the story with the whole "Cheese jealousy" thing, but nobody really uses him and I wanted to give him something to do. Also, part of the original subplot was going to have Shades taking over Sonic's life as everyone's new best friend and Sonic regretting pushing everyone away. However, if I did that, the story would be six issues long and I'm having enough trouble just finishing up the story in 4 issues.

The hedgehog's new clothes

Issue 2 Page 13

8/25/13

This joke came from the baseball episode of Sonic X where Cream used her powers of cuteness to make the robot drop the ball. Originally, I had Cream do that trick to Sonic in issue 1 and he ended up picking flowers with her, but then I wanted the subplot that I later trimmed down so I changed it to him fooling her so he can get some rest.

Playing God and playing favorites

Issue 2 Page 14

8/25/13

This is the best diss of Chris I could come up with. Plus, Chuck always did seem closer to Tails in the anime. Makes sense since they have similar interests.

Oh, and Tails making the X-Tornado will result in a new, albeit temporary character.

"I got a rock"

8/25/13

Issue 2 Page 18

I always believe that characters need a set reason for their personality. Sonic is arrogant because everyone loves him. Knuckles is always angry and bitter because his whole life is centered around guarding a giant emerald and being alone. Of course it would upset him to see Sonic squander his good fortune of having close friends.

Knuckles will be getting a good reward (temporarily) and be an important part of the story later on.
